Grant Writer/Project Administrator Phillip Buffington spoke with the commissioners regarding the request he received from the USDA regarding Priming the Pump, which is a county-led, multi-township model in which the County coordinates infrastructure funding applications on behalf of three to four of the county's highest-need townships. The county would receive approximately \$15,000 from RBDG in technical-assistance and capacity-building effort. Mr. Buffington states he is still gathering information regarding this, as he was given very little. Mr. Buffington also presented the two commercial leases regarding the Mayhew property for the commissioners to review.
